

## Basic Crime Prevention Training Course June 7-9, 2016

*Hosted by Kennesaw State University*

### Do You Want To Reduce Crime in Your Community?

If the answer is yes, then you'll want to attend our latest Basic Crime Prevention Course. The goal of this course is to prepare participants to understand and deliver basic crime prevention services in their community.

#### Training Description

The Basic Crime Prevention Course is a three-day course that provides an introduction to opportunity-based crime prevention. Participants will learn about the development of crime prevention and understand the various types of crime prevention and which techniques are best. Participants will begin to see how researching and keeping current data on crime trends can aid in preventing future crime. NCPC will give participants a well-rounded view of crime prevention as it relates to their communities, cities, states, and countries. Some sessions include Neighborhood Watch and other community programs, emerging crime trends, senior safety, overview of Crime Prevention Through Environmental Design, and overview of gang violence prevention. There will also be time to network with other professionals in the field to learn what others are doing in crime prevention.

#### Who Should Attend?

This training is designed for those who work in the law enforcement and crime prevention arena and those who teach or present crime prevention to their communities.
